# Academic Vacancy

**Position: Instructor**

**EEO# EN 6-13**

**Responsibilities:**

The Department of Petroleum Engineering at the University of Louisiana at Lafayette invites applications and nominations for a position at the level of Instructor. Candidates must have an earned MS in petroleum engineering or a closely related academic discipline. Candidates must be capable of teaching undergraduate petroleum as well as general engineering courses. Both industrial and teaching experience is of particular interest to the department. Experience in the following areas is highly desirable but not limited to: drilling, drilling fluids, and formation evaluation, reservoir PVT properties, characterization and 3-D visualization, petroleum economics, unconventional gas recovery, and environmental engineering. Economic development activities are encouraged.

**Qualifications:**

Candidates must have an earned MS in petroleum engineering or a closely related academic discipline.

**Administrative Unit:**

The Petroleum Engineering Program is ABET-accredited, and is expected to experience significant growth due to recent university and industrial investments. The university offers both undergraduate and graduate degrees.

**Environment:**

The University of Louisiana at Lafayette is a Research University with High Research Activity public institution with an enrollment of approximately 18,000 students with 575 full-time faculty. The Southern Association of Colleges and Schools Commission on Colleges accredit the university. UL Lafayette consists of nine degree-granting units, offering degree programs in 54 undergraduate disciplines, 20 post bachelor certificates, four graduate certificates, the master's degree in 27 disciplines, and the doctorate in 10 disciplines. Located midway between New Orleans and Houston, the city of over 122,000 is part of the Lafayette-Acadiana area with a total population of 550,000, The Lafayette- Acadiana Area is one of Louisiana's fastest-growing metropolitan areas. The area serves as the base of Louisiana's offshore oil industry, as well as the financial, retail, and medical center for South-Central Louisiana.

The UL Lafayette College of Engineering offers both BS and graduate degrees in chemical, civil, electrical & computer, mechanical, and petroleum engineering and a BS in industrial technology. The college is poised to rapidly elevate its overall program into one of increased national prominence. The university is located in Lafayette, LA, an exciting community in the center of Louisiana's Cajun Country. The university is the second largest in Louisiana and is a Carnegie Research University with high research activity. The community is highly technology-oriented and is one in which people remain due to the high quality lifestyle, pleasant climate, and friendly

people. Further information about the university and the Petroleum Engineering department is available on the University's web page at <http://www.louisiana.edu>.

**Salary:** Dependent on qualifications and experience.

**Starting Date:** ASAP

**Applications:** Candidate review will begin immediately.
