

UNIVERSITY
OF
LOUISIANA
L a f a y e t t e

ACADEMIC VACANCY

EEO # EN 12-15/EN 18-15

- POSITION:** Assistant Professor, Tenure Track – Petroleum Engineering
- RESPONSIBILITIES:** The Department of Petroleum Engineering at the University of Louisiana at Lafayette invites applications and nominations for a tenure track position at the level of assistant professor.
- QUALIFICATIONS:** Candidates must have an earned doctorate in petroleum engineering or a closely allied academic discipline. Also, candidates must be capable of developing and sustaining a strong externally-funded research program in their respective area of expertise, and must demonstrate interest in teaching undergraduate and graduate courses. Both industrial and teaching experience is of particular interest to the department. Experience in the following areas is highly desirable but not limited to: formation evaluation, reservoir characterization, petroleum economics, 3-D visualization, geophysics, seismology, unconventional gas recovery, and environmental engineering. Economic development activities are encouraged.
- ADMINISTRATIVE UNIT:** The department offers both undergraduate and graduate degrees. The petroleum engineering program is ABET accredited, and is expected to experience significant growth due to recent university and industrial investments. Information regarding the Petroleum Engineering Department at the University of Louisiana at Lafayette can be found at <http://www.petroleum.louisiana.edu>.
- The UL Lafayette College of Engineering is one of the fastest growing colleges of engineering in the US with a total student population exceeding 2,900 and offers degrees at all levels in chemical, civil, electrical & computer, mechanical and petroleum engineering, a BS in industrial technology, and a MS in Systems Technology. The college is poised to rapidly elevate its overall program into even higher levels of national prominence. The university is located in Lafayette, LA, an exciting community within Louisiana's beautiful Cajun Country. The university is the second largest in Louisiana, with over 18,000 students and is a Carnegie Research University with higher research activity. The university is SACS-COCS accredited. The community is highly technology-oriented (with a strong emphasis in computer and energy related industries) and has a reputation of being a community in which people are prone to remain due to

the high quality lifestyle, pleasing climate, and friendly nature of its people.

Further information about the University is available on the University's webpage at <http://louisiana.edu/>.

SALARY: Commensurate with experience

STARTING DATE: August 2016
