POSITION: Software Developer

EEO# RD 56-16

RESPONSIBILITIES:

The Software Developer is responsible for improvements and implementation of current and future information technology projects specific to NIRC. In addition the Software Developer will be expected to:

- Modify existing software to correct errors or expand functionality.
- Use version control process to manage software versions.
- Develop user requirements by analyzing current workflows.
- Provide technical support on developed software.
- Assist with software validation to document every phase of the software development lifecycle.
- Develop and adhere to Standard Operating Procedures.
- Provide training to personnel on the use of various applications.
- Create data reports and data queries.

QUALIFICATIONS:

Bachelor of Science in Computer Science. The candidate must have experience with at least the Windows and UNIX operating systems. The candidate must be proficient in a variety of programming languages. The main programming languages needed for this position are Visual Basic and Java with some C++, HTML, and UNIX scripting.

UNIVERSITY AND COMMUNITY:

The mission of the University of Louisiana at Lafayette is to offer exceptional education informed by diverse world views striving to develop innovative leaders who advance knowledge. The Southern Association of Colleges and Schools Commission on Colleges accredits the University, which offers undergraduate and graduate degrees in the arts, sciences, and professional programs. The University is a public research university with high research activity, an enrollment of over 18,000 students and 800 faculty members. UL Lafayette is the largest of nine universities in the University of Louisiana System. The University offers degree programs in 55 undergraduate disciplines, 15 post-bachelor certificates, seven graduate certificates, the master's degree in 28 disciplines and the doctorate in 10 disciplines. Additional information about the University is available on the University's webpage at <http://louisiana.edu/>

The New Iberia Research Center is a \$20 million biomedical research center which provides resources for the conduct of basic and applied research requiring the use of non-human primates aimed at the solution of human health and societal problems. In addition, the Center serves as a resource to the biomedical community enabling investigators from other institutions to conduct all or part of their research. The NIRC is a Center of the University of Louisiana at Lafayette. Within the NIRC, the Director, Associate Director-NIRC CRO Research Director, Chair of Veterinary Medicine, and Quality Assurance Auditor comprise the Executive Team.
