ACADEMIC VACANCY

POSITION: Director in the rank of Full Professor, beginning August 1, 2018.

RESPONSIBILITIES:
The successful candidate should have a proven record of strong research and publications, leadership in academic settings, an ability to lead and advance a diverse group of accomplished teachers and scholars, excellent administrative and interpersonal skills, a proven ability to attract external funding, and an ability to teach geoscience courses at all levels and to mentor graduate students.

QUALIFICATIONS:
Required:
* Ph.D. in Geology, Environmental Science, or related field;
* Credentials commensurate with an appointment at the rank of Full Professor;
* A distinguished record of research, publications, and teaching, including student mentoring and supervision at the graduate level;
* A track record of developing successful, externally-funded research programs;
* A commitment to attracting and supporting a diverse faculty, staff, and student body;
* Excellent communication and relationship-building skills, and an ability to work openly, personably, transparently, and effectively with every constituency in the School, and with both internal and external stakeholders, including alumni.

Desired:
* Experience maintaining a strong research program while holding a full-time administrative position;
* Experience in assessment and curriculum development;
* Experience leading interdisciplinary research projects;
* Internationally recognized research program.

SALARY: Commensurate with experience.

ANTICIPATED START DATE: August 1, 2018

APPLICATIONS:
Applicants should send complete application packages, including a letter of application, curriculum vitae, statement of academic leadership, statement of research, and contact information of five references electronically (as a single PDF file) to Dr. Brian Schubert, at schubert@louisiana.edu. To ensure full consideration, receipt of a complete application is required on or before November 15, 2017.

The review process will continue until the position is filled. The University of Louisiana at Lafayette is dedicated to the goal of building a diverse faculty committed to research and teaching and working in a multicultural environment. Women, minorities, and individuals with disabilities are strongly encouraged to apply.

The University of Louisiana at Lafayette does not discriminate on the basis of race, color, national origin, age, religion, sex, sexual orientation, or disability in admission to, access to, treatment in, or employment in its programs and activities as required by Title VI and Title VII of the Civil Rights Act of 1964, Age Discrimination in Employment Act of 1967, Age Discrimination Act of 1975, the Equal Pay Act of 1963, Title IX of the Education Amendments of 1972, Executive Order 11246, Section 503 and 504 of the Rehabilitation Act of 1973, Section 402 of the Vietnam Era Veterans

The University of Louisiana at Lafayette is an Affirmative Action/Equal Opportunity Employer

A Member of the University of Louisiana System
UNIVERSITY AND COMMUNITY:
The mission of the University of Louisiana at Lafayette is to offer exceptional education informed by diverse world-views striving to develop innovative leaders who advance knowledge. The Southern Association of Colleges and Schools Commission on Colleges accredits the University, which offers undergraduate and graduate degrees in the arts, sciences, and professional programs. The University is a public research university with high research activity, an enrollment of over 18,000 students and 800 faculty members. UL Lafayette is the largest of nine universities in the University of Louisiana System. The University offers degree programs in 55 undergraduate disciplines, 15 post-bachelor certificates, seven graduate certificates, the master’s degree in 28 disciplines and the doctorate in 10 disciplines. The strategic plan of UL Lafayette includes a strong push to substantially increase the number of Ph.D. degrees awarded across campus. Additional information about the University is available on the University’s webpage at http://louisiana.edu/.

The School of Geosciences resides within the University's Ray P. Authement College of Sciences. The School of Geosciences (http://geos.louisiana.edu/) houses the programs of Geology and Environmental Science, each offers B.S. and M.S. degrees. The Environmental Science program awards undergraduate degrees with concentrations in Soil and Water, Environmental Quality, and Geographic Information Science. The School is also experiencing growth, with a new M.S. program in Environmental Resource Sciences starting in Fall 2017, and six new tenure-track faculty hires since 2013. The School now includes 11 faculty members, four full time instructors, a research scientist, lab technician, and approximately 150 total undergraduate majors and 85 graduate students. With the University’s location in the center of the petroleum and environmental science industries, our primary focus areas are Energy and the Environment. The faculty is engaged in active research in these areas including interdisciplinary research across campus and with external entities. In the five years ending on December 2016, the faculty in the School published over 267 peer-reviewed articles, book chapters, and conference proceedings; awarded 127 B.S. degrees and 56 M.S. degrees; and was awarded $5,800,000 in external funding. The School is also an international leader in the AAPG’s Imperial Barrel Competition, with two first place teams in the international competition within the last 5 years (out of 120 schools).

The School is seeking an enthusiastic leader to guide and support all activities within the School, and to help grow the School of Geosciences and its Graduate Program.
